Education

Arab Academy for Science, Technology & Maritime Transport (AASTMT) Sep 2024 – Jun 2028
Bachelor's Degree in Computer Science *Alexandria, Egypt*

Projects

Smart Meta Tagger | *Java, REST API, SQLite, AI Models* 2026

- Developed a **Java-based application** that integrates **AI APIs** to analyze uploaded images and videos, automatically generating **descriptions and metadata tags**.
- Integrated **SQLite database connectivity** to manage user registration, **authentication**, and secure logging of media metadata.

Personal Portfolio Website | *HTML, CSS, JavaScript* 2026

- Designed and developed a **responsive personal portfolio website** to showcase software engineering projects, technical skills, and achievements.

CP Club Website | *PHP, JavaScript, HTML, CSS* 2026

- Built a **dynamic website** for the CP Club to showcase events, resources, and announcements using **PHP** for backend processing alongside modern web technologies.

Enterprise Network Architecture Simulation | *Cisco Packet Tracer, Networking Protocols* 2025

- Simulated a multi-branch corporate network topology linking regional locations using **ISR4331 routers**, configuring **DNS, DHCP**, and wireless access points with full ICMP routing validation.

Hotel Management System Database | *SQL, ERD Design, Relational Databases* 2025

- Designed a comprehensive **Entity-Relationship Diagram (ERD)** modeling hotel entities including guests, rooms, reservations, payments, and employee shifts.
- Implemented the relational database using **SQL Scripts**, featuring table creation, constraints, data insertion, updates, and complex analytical JOIN queries.

Library Management System | *C* 2024

- Developed a **library management system** in C to handle books, users, and borrowing operations with **efficient data handling** and **search functionality**.

Technical Skills

Languages: C, C++, Java, Python, PHP, JavaScript, HTML, CSS, SQL

Developer Tools & OS: Linux / Unix Shell, SQLite, Cisco Packet Tracer, Git, GitHub

Core Concepts: Data Structures, Object-Oriented Programming (OOP), Problem Solving, Database Management, Computer Networks

Volunteering

Organizing Volunteer 2026
ROV Competition (Remotely Operated Vehicle) *Alexandria, Egypt*

- Managed participating team operations and supervised task execution to ensure **seamless alignment** with contest schedules and guidelines.

Honors & Awards

- Ranked **14th Place** University-Wide – **Egyptian Collegiate Programming Contest (ECPC Qualifications)** Aug 2026
